Re: Letter of Recommendation

To Whom It May Concern:

I have been a General Building Contractor and worked in the building industry for over forty-nine years, building many different types of projects.

During this time, we have employed many different painting contractors for our projects. Juan Esco, the Owner of Esco J Painting ranks up at the top with the best in our opinion.

Juan has demonstrated that he is a team player and possesses the knowledge and an eye for high quality. The high quality requires tight and strict supervision of all employees from beginning to completion of the project.

Juan's knowledge and people skills have helped him be successful completing projects on time which has resulted in happy customers for his company as shown by the number of repeat customers.

Juan is a contractor that I will use and recommend in the future.

Sincerely,

A handwritten signature in blue ink, appearing to read "Barry D. Becker", is written over the word "Sincerely,".
